## Software Engineering & Information Systems Student

Motivated software engineering student with hands-on cybersecurity training and internship experience. Seeking internships or junior opportunities in cybersecurity, IT support, or software development.

---

## EDUCATION & TRAINING

---

### Software Engineering and Information Systems — SEIS

FINKI, Faculty of Computer Science and Engineering | Oct 2025 - Expected July 2029

Bachelor program focused on programming, object-oriented design, computer architecture, mathematics, and software/information systems analysis.

### Intensive Cybersecurity Training Program

June 2025 - Dec 2025 | 120 academic hours | Aligned with CompTIA Security+ SY0-701

Covered security fundamentals, GRC, NIST/ISO 27001 awareness, SIEM, IDS/IPS, EDR/XDR, vulnerability analysis, incident response, and digital forensics.

### High School Diploma — Natural Sciences and Mathematics, Track A

Zef Lush Marku | Sept 2021 - June 2025

Graduated with average grade 5. Final Informatics project focused on cybersecurity in everyday life and the digital world.

---

## EXPERIENCE

---

### Cybersecurity Department Intern

Sharp Group LTD, Prishtina | June 2025 - Dec 2025

- Assisted with threat detection and continuous monitoring using SIEM, IDS/IPS, and EDR/XDR concepts, including Wazuh.
- Identified and assessed infrastructure risks using Nmap NSE, Nikto, and Maltego CE.
- Practiced controlled attack scenarios with Metasploit, SQLMap, and Ettercap.
- Completed client-focused security tasks with professionalism, attention to detail, and accountability.

### IT Lab Technical Assistant

Zef Lush Marku | Sept 2023 - June 2025

Helped maintain school computer labs, troubleshoot Windows issues, install software, and support teachers/staff.

### E-commerce Operations Assistant

Aima Trejd, Wholesale | June 2025 - Sept 2025

E-commerce operations, logistics, and customer management.

---

## SKILLS

---

### Programming & Software

C++, HTML, CSS, structured programming, object-oriented programming, object-oriented analysis/design, computer architecture.

### Security Tools

Kali Linux, VirtualBox, Wazuh, Nmap NSE, Nikto, Maltego CE, Metasploit, SQLMap, Ettercap, Volatility, Autopsy.

### Security Concepts

GRC, risk management, frameworks: NIST/ISO 27001, incident response, digital forensics.

### Business & Communication

Client communication, technical reporting, Microsoft Office.
